Charles Darwin's on the origin of species. -Noor 6S

This book is incredibly interesting. Charles Darwin had written a book about evolution. This book demonstrates that every animal and human is different. Over time people, just like animals, can evolve. What is evolution? Evolution is where someone or something changes over time and sooner or later they'll develop abilities that the past couldn't. This book has many pictures that make make the book stand out. If you like picture books mixed in with information about life as we know it I'd recommend this book to you! I'd give this book 9/10 stars.

Still Water review by Meerub

Mystery , horror what else can you ask for

This book is amazing , the front cover gives you chills and describes the story perfectly

This story follows about a young girl Rosie who is taken out of London as there is a war going on her new carer seems kind but her daughter Mary is not as kind as her mother . One day Rosie discovers the pond and its hidden truth is all revealed , will there be a happy ending ??

This book is a 5/5 I would definitely recommend to read at night so it is even more scary

Year 5

The blue giant

I deeply recommend this book to people who like to change the world .

This book is very encouraging for young people and grown ups to learn about climate change and what it is doing and what they can do to change it .

I rate this book 10/10

4A Neev's Flotsam book review

Absolutely brilliant book I highly recommend this book to everyone. Because if you wanted to you could literally spend HOURS on just looking at the illustrations. It is a wordless book but that doesn't mean you can understand what the book is trying say. Anyway I do find this book weird, funny and interesting

Grandad's Secret Giant

Reviewed by Matteo 3T

I would rate this book 10/10 because I loved the giant who helped the town every time. He even helped the little boy in the story when he got caught in something... Every single time when someone sees the giant they run away and scream. They are judging him and scared of him because of his size, because he's a giant. They shouldn't do that because they are all humans. This is a story about friendship and not judging people by the way they look. This book is an interesting read!

Jeremy Strong-My granny's great escape

Anisha-My book review

My granny's great escape by Jeremy Strong is a extremely hilarious book. My favourite characters were mum, granny and Lancelot. My favourite part was when Nicholas's mum acted cool and told 2 park keepers they can't search Nicholas's house because their not on crime watch and that they are not police officers so they should go back to the park and make sure the dogs are behaving themselves. I would rate this book 5 out of 5. I would recommend this book to somebody who likes funny but exciting stories.
